Carlyle's Religion.

A Fierce Denunciation of Sin.

A fierce Desanciation of Sis.

As the Cartyle's religion, it is not certain that he subscribed to any defaulte theological creed. Yet how fierce were his denunciations of sir. "None of your Heaven and Hell amaignation, companies for me," he was to say. The power of the human will to evercome sin by the help of God he believed. "Man is Heavenborn-say the thrail of circumstances of necessity, but the victorious subduer thincus."

One of the most interesting and interested of those who from distant places tisted Carlyle, was Denerson, the American philosopher, who said. "We sat down and talked together of the immortality of the soul. Said he, "We sat down and talked together of the immortality of the soul. Said he, "Our sided on the tree that built Danacote Kirk yonder; that hroughtyou and me together."

For more than half a century, in his own inimitable way, and with superhuman energy, he struggled to establish the basis of al religion, "reverence and the fear of God." "Love not the world, love not pleasure, but love God," is his message.—The Field Officer.

Then one of the party took up the collection. That is the chief end of many services; but it war only an incident this time. "The collector was the chief of a big North Coast paper, who is used to taking up collections in church. Ho borrowed a hat and weat round as if to the manner born. I don't care for a collector's job. Did you ever hear the Scotch yard about it? The collector for the gallery had left, and the elders and the session were soon put to it to find a man in his place. One of the session told a hairdaft fellow, named Jock, that he ought to take the job on Jock asked what he would get out of it, and the elder in jest, said: "Ye'll get five pounds a year and a bag of meal." Jock volunteered for the joh at once, and acted for a year. At the end of the year Jock went to the minister smiled benignly and assured lock that they never paid a bag of meal to the collectors. After the collection on the "Arawatta," one of those girls arose and thanked us all for the collection, and she told us the story of her life. She made no fuss nor scream about it, but told us quietly that she loved Jesus better than she loved home or friends, or earthly ites, and for that ber parents had turned her out of house and home. She and her friends—the other girls—had been traked in Melbourne, and now they were going to serve God in other places. She was grateful to us, and she read us a chapter (Isaiah Illil), and prayed that God would keep and bless us. It was wonderfully pathetic to see that young 'girl standing among that crowd of men, talking about Jesus hand. His love. There was no hrass band, no hurrying crowd, no excitement, no cheering comrades; hut there she stood with tearful cyes, and moderal Jonn of Arc: a Malq of Or leans with the almour. Thereupon, a smart little duck, hardly a month old, rose upon her tiptoes, flapped her little wings, and cried, "Follow your leader!" and went straight into the pool of water. Then, seeing that Flap did not follow, the little duck added, "What! you dare not do it."

ARMY ON THE MARCH.

How Salvation Army Operations Began in India-From "The Romance of The Salvation Army," by Hulda Friedrichs.

N the autumn of the year 1880 a young Indian judge sent a small donation to The Salvation Army in England. Together with the receipt acknowledging it, he received a copy of the Christmas number of the "War Cry." He read the Hitle sheet from end to end, and found that, notwithstanding its sensationalism and other points which did not appeal to him personally, it was inspired by the spirit of true religion, "Here is what I want, what I have always been looking for," he said to himself. He applied for six months' leave of absence, and forthwith came home to England. The day after his arrival he saw the announcement of a Salvation Army meeting at which General Booth would speak. He went to this meeting, and again the ring of sincerity and the absolute simplicity impressed him so deeply that at the end of the service he naked to see General Booth, and there and then expressed his wish to join The Army.

Advice that Helped.

Our young judge being a man of culture and education, thought, not un-Our young judge being a man or cutture and education, thought, not un-naturally, that a man of his clars would have as good a chance as anyone of being accepted—perhaps even accepted with some degree of special satisfaction. But he had not long been in The General's presence before he was undeceived. The keen eyes of the Leader, accustomed to the reading of all sorts of characters, studied the candidate's face; he listened attentively to the latter's words and asked a few questions as to his

position. Then, in his frank and downright fashion, he said:

I do not as a rule give advice in cases such as yours, but I will make
an exception. You know next to nothing about us; you have six months before you with nothing to do. Use that time to get to know us better; find out what we are doing, and how we are doing it. Go wherever you like and see for yourself; inquire into everything. You may then find that you do not approve of our methods: all sorts of objections and difficultier may occur to you, and you may be glad to be rid of us. But it, at the end of your leave of absence, you are still of the same mind, come to me again, and we will talk to matter over."

During those six months the young Anglo Indian made a thorough study of the work of The Salvation Army in all its various branches, and before he returned to his post he went once more to see General Booth, announcing that he was ready to send in his resignation if he would be accepted as a worker in The Army. This time The General was more inclined to accept the eager volunteer, but before anything was agreed upon, he inquired how many years the young man still had to remain at his post before his Civil Service pension was du

Now it so happens that in the particular position then occupied by Mr. Tucker, the applicant, after twenty-four years' service the holder is entitled to a pension of £1,000 a year, rad, if married, to a pension for life of £300 for his widow, a pension for each son to the age of twenty-one, and a pension for each daughter till she marries. "Would it not be wisce of 1.390 for his widow, a pension for each son to the size of twenty-one, and a pension for each daughter till she marries. "Would it not be wiser to wait till your pension is due?" The General asked, silli amxious to test the volunteer's strength of conviction before accepting him. The answer came without a moment'a delay. "No, that would be too long. I may be dead long before then, and I would like to begin at once." And so it came to pass that the man who was to carry the War Into the ancient East was enrolled as an Officer of The Salvat'on Army.

A Secret Circular.

That was in 1881. At that time a spiritual dearth and familie had fallen upon hidis. There had been missions, and there were still carness men at work among both natives and Europeans. But the period of religious revivals and awakenings sceined all to belong to the past. Nu-merically, there was one missionary to every 400,600 souls, and that little handful of men tolled patiently on, apparently without result. A tor-por, which it was impossible to shake off, lay upon spiritual life. At that point The Salvation Army stepped in. The young Indian judge was now Major Tucker of The Salvation Army; he had thrown away all bis chances of worldly success, in order that he might fight in the holy was and help to conquer India for Christ.

The invading Army, of which Major Tucker was the head, was not to

Outward appearance a very formidable body. It consisted of four Offi-cers, whose prospects of leading lay entirely in the future, when they would have salsed recruits and followers. But the four were paid the high compliment, even before they stepped off the boat that had brought them from England, of being considered a most dangerous body whose the netherities must suppress and render "harmless" at any cost. As the dangerous leader of the force has since said, in referring to the early days of his wenderful Indian Camprignt the secret circular was secred asking, for advice we to the best

sections of the Indian Penal Code for dealing summarity with the dan-Police mounted and on foot. European and native were detailed to watch every movement of the new arrivals. Constant tele-grams were exchanged between the Governor of Bombay and the Commissioner of Police, who had strict orders to allow nothing to be done outside the ord nary line of missionary enterprise."

They were not to go through the streets in procession, these strangers, , unlike other European missionaries, had donned the native dress, modifying it only so far that the scarlet jersey, denoting The Salvaton Army uniform, was not entirely out of sight. And not only in their attirebut in their whole manner of living, they conformed to the standard of the multitude of natives of Ind's. They lived lowly and humbly among the lowly and poor, and the only differences between them and those whom they had come to serve were that their faces were white, and that they worshipped a crucified Christ, while all around them Vishau, Shiva, or the Prophet Mahomet ruled the East.

When the decree went forth against the Salvat'onists' procession, se in authority had, in their anxiety to subdue the invaders, overlook ed an important fact. They had forgotten that the leader of the army of four was himself a trained lawyer, and that his position as judge had probably acquainted him as intimately with the law as any of those who now threatened to "have the law on him."

Sent to Prison.

The Salvatlonists, therefore, knowing that they were trespassing against no law, and that there was no reason why they should be denied against no law, and that there was no reason why they should be denied the privileges of procession which tens of thousands of Hindoon and Ma-hometans enjoyed without let or hindrance, went on matching in proces-sion, and Major Tucker was promptly put in prison, 14 be tried again after an interval of a few weeks. The outcome of this trial was that the Estvations spiedged themselves not to sing while going in procession through a certain street in Bombay, which, it appears, was the special haunt of fanatics, so long as there was any danger of exciting the

After this the Officers were left in peace to pursue their object of "saving India for Christ." The four strangers, living lives as lowly as did their Master during the years when His reign of peace began in another part of the East, set bravely and happily out to convert the unnumbered multitudes of India. The sceptic would say it was more quixout than the efforts of Don Quixote himself.

The Invaders of India.

But enterprise carried to the extreme of during and endeavour has been the life-breath of The Salvation Army all along the line, and the greatness of their task only stimulated the invaders of India to unexasing energy and activity. And remembering that the multitudes in the East are intensely religious, and that the majority are Hindoos or Mahometans. one wonders less that those latest missionaries from the West set out with hopes of great and speedy victories. For it may be easily seen, even without a deep study of the religions of Buddha and Mahomet, that no impassable gulf is fixed between them and the religion of Christ. Surely the Lord of the East who said:

> "That love is false Which elings to love for selfish sweets of love; But I who love these more than fore of mine-Yez, more than joys of theirs—deport to them and all flesh, if utmost love prevail,

is closely akin to the "Man of Sorrows, acquainted with grief." And the simple Gospel of Mahomet—such as it was when first written on palm-leaves, leather, stone lablets, and the shoulder-blades of goats and camels, before it was elaborated by various Eastern philosophies, and then wrangied over an horly and persistently as the Goodelor Curist has been de-justed from the days of the Early Fathers to those of the newest of new theologies—resembles in many essentials the teachings of the Oil and the New Testament. The student of the Koran, accustomed to constant situations to the Bible in Ierus of reverence and homage, could not be altogether out of sympathy with the teachings of this new Western creed. Such passages, for instance, as the following, from the religious law of Mahomet, read like paraphrases of a Bible learon:

"Il is not rightenus that you turn your face towards the East or the West, but rightenussess is in bizz, who believeth in God and the last day, and the Angels, and the Strip-tures, and the Prophets, and who (Continued on page 11.)

Great Anniversary Meetings at New deen. Other War News.

Prigedier and Mrs. Collier have been enthusiastically welcomed to the Maritime Provinces. The welcome meetings in St. John at the different Corps were everything that could be desired. The Bandsmen at No. I., were especially glad to welcome Bandsman Bramwell Collier, slea Master Stanley, who will be a Beadsman in the near future.

The Provincial Comm The Provincial Commander accom-panied by the Provincial Secretary and the D. O. of the Hallfax Division, have just visited the Corps in Cape Breton District. Almost every Corps was visited. Officers Councils, An universary gatherings, Junior mea-ties, and a Hallelujah wedding were on the slate. A good time was speat.

The Provincial Commander visited Halifax and Monoton in connection with Brigadier Roberts' special campaign, and reports a good time at both places. The Brigadier's lecture on "Undaunted Dick," at Monoton, was gnioyed by all. The commades with be pleased to see Brigadier Roberts again.

The P. C. visited Whitney Pier, and the P. S. called at Sydney on the Saturday night, and had a very pleasant and profitable meeting at each place.

The Anniversary of the opening of the New Aberdeen Barracks has recently been celebrated. A great work has been accomplished in both the Senior and Young People's branches of the Corps. Captain and Mrs. Hargrove, who, by the way, have just received farewell orders, have done an excellent work. Twelve new recruits were enirolled in the morning holiness

The Hell was packed on Sunday travers for the Colonel's lecture on the "Past and Present of The Salvation Army." The Band played excellent music. The Songaters sang splendid and appropriate selection, and the whole thing was a grand success. His worship Nayor Douglasschaired the meeting. The Revs. McKinnon and Freeslone, with Councilor McDougail and our old friend Mr. Keily, occupied prominent places on the platform. The P. O. excelled himself on this occasion.

Councillor McDougail and Mr. Keily voisinteered to take up the offering, which they did in a most creditable manner, and siterwards made apeeches, in which they spoke in the highest possibly terms of the work of The Army in general, and especially in their own town. His Worship the Mayor thanked the P. C. for his spiendid lecture, which was both interesting and profitable to all present. The P. S. tendered the appreciation of the meeting to the Mayor for the part he had taken, and thus a very successful meeting was brought to a siose. *

At the night meeting the crowd, the music, the singing, the Anniversary address by the P. C. were splendid. The number who stood to their feet testifying to having been saved for blessed in the Barracks during the year its doors had been open, was most encouraging. And hest of all, tent finish with eight at the mercy reekt maids the allouting sand dancing of the Soldlery.

Monday we were reinforced by Brisad'er Morchen and the Officers from aurounding Corps. Again the unifaing was jaumed to the doors. The D. We have one of the best Young People's Corps here that "Traveller" has ever seen. The P. C. and the P. S. addressed the Junfors on Sunday afternoon. There were 129 children present, their Compsnyofferings amounted to \$5.16. (What Corps can beat that?) The new system of rewards is being worked in this Corps most successfully.

A meet og was also conducted with the Corp. Cadets, at the close of the Sunday afternoon Senior meeting.

The Secretary for the Young People's work, and the Editor of the Young Soldier should have been at the special Young People's meeting on Monday afternoon, when iterrity and when, at the close, twenty-six ranging in age from six and seven to fourteen and fifteen years of age—sought anystation. fourteen and nit sought salvation. .

We held an Officers' meeting with the visiting Officers in the afternoon, and then invited them to the special Junior meeting afterwards. The claims of the Young People were brought before the Officers in the Council while the meeting mentioned in the previous paragraph was an apt illustration of what can be accomplished by proper organization and toll.—Traveller.

PROGRESS AT DAWSON.

A Splendid Work at Klondike-Visitation Revealed.

The Salvation Army is evidently prospering at Dawson City. A number of Soldiers have been enrolled, and things generally are going shead. This helps the case, Ensign Johnstone is turning his attention to the regions beyond, and will, in the near tuture, commission Brother Jensen as Bovoy, to do scouting work in the twelve mile and forty mile country. Fairbanks also, will receive attention and will be visited (D.V.) by the Ensign, just as soon as nav.gation opens, if not before.

At the Outpost, Klondike City, the efforts of love that are being put tooth are much appreciated by the unfortunates, and the results thus far have been gratifying, three at least, if not more, having left their life of ghame, as the result of the efforts of The Army.

The success in this direction, and the increased interest and attendance at the Dawson Citadel, has encouraged the Officers and Soldiers to a continuance of the good work.

The many patient, who had gathered in the large reception hall, listened angelt to the main, songer and testimonies given by the different comrades. Many a heart was cheered and brought nearer to God. Tears were seen in some eyes, and one dear man expressed in a convincing manner his determination to live beneforth for God. The head physician gave the Band as hearty savitation to return at an early date.

The weather being extremely cold, the Band was unable to play in the openair. The people Socked in the openair. The people Socked in targe numbers to the Open House at 3 p.m. however, where the Mayor of fravenium; gave a hearty welcome

Previous to the commeacement of the evening service proper, an half hour of music and song was given by the Bandman. A cornet solo readered by the Bandmaster captivated everywhody, and absolute silence prevailed. Major McLean took charge of the meeting, at the close of which one sister sought salvation.

The Band returned to Orillia by the Cobalt Special at 3 am, Monday morning. Although somewhat three they were not too weary to play a couple of marches on the train. On February 3rd, the Band was on the go once again, this time across the frozen lake, to Rama Indian Reserve. The D. A most excellent means of checking the habit of getting late to work has been devised by the workmen of sa certain English engineering firm. They have organised wnat they call the "Lazy Club."

Whenever a workman is more than five meantes after time, he finds the gate locked, and he fis not allowed to enter until the half hour is up. This half nour is deducted from his wages, but in addition, he has also to pay to the treasurer of the Lazy Club about five cents for coming late.

If he is late more than once or so during a week everybody is aware of the fact, and the second or third time he makes his appearance after startiag time, he is greeted with a terrific combination of noises produced on any available material by his follow-workmen.

At certain periods the accumulated funds of the Lazy Club are divided, not amongst those who have produced them, it should be noted, but ramogst the entire staff equally.

The French are puzzled over the fact that the hrains of the four much acrear recently guillotined, upon being examined by several doctors, showed no signs of degeneracy, but, on the cuntrary, were unusually well developed. One of the professors stated that there was no reason whatever why these men should not have led perfectly regular, moral lives—except, that they did not want to. He struck the mark in the latter phrase. We are inclined to think that the cause of the moral fa'lure uf these men was bad hearts rather than degenerate brains. Because a man is clever it does not always follow that he is good. A powerful brain allied to a corrupt heart usually produces a great scoundrel. "Evil hath, hold of every man within," Is a true saying, and until that evil he driven out by the love of God, men willicontinuo to transgress the law, whether they have well developed brains or are half demented.

The trouble between the Hindoos and the Mahometans in Calcuita and its neighbourhood arose from the police order that, in deference to Hindoo feeling, forbade Mahometans to sacribe cows, animals sacred to the Hindoo, and led a good deal of daugerous rioting, in which the "Din Din" of the frontier fantatic was heard. Owing to the improvement in medical science, and from the increased knowledge of dectors, as regards sanitation, the health of the British troops in India Is now better than it has ever been.

In the forty years hetween Waterloo and the Crimea campaign, according to Colonel Tulloch, nearly 100,000 Europeans perished in India from procentable causes. For the first half of this period the army numbered 25,000 mea, and later was raised to 40,000. The terrible mortality, mainly in Bengal, was the result of a want of sanitary knowledge in the selection of cantonments. Apart from humane considerations, the monetary loss alone, irrespective of that of invalided soldiers, amounted \$55,000 mea.

Formerly the most dreaded station was the Mian Mir, the Lahore eantonment. There, in 1879, the admissions per 1,000 men from fever alone, were 3,427, and from all causes, 4,700. The years ago, the average of admissions was 2,900 per 1,000, but it has dropped gradually until last year, when it was 650 per 1,000. It is natural that the number of constantly sick in India should be bigher that it is in the United Kingdom, and it is still double, but now those in command appreciate but into the content of the question.

HOME-GOING OF A DEVOTED SALVATION

of Mrs. Brigadier Pickering on Sunday morning, February 7th, came as a great shock to her clatives and comrades. She had relatives and been seriously ill for some time pre viously, but no one expected that the end was so near. Peacefully she last recorded utterance being "Jesus, e and help me."

Five years ago she had stood by the bedside of her dying bushand and heard him say, "Dear wife, (referring to their eldest child, who had passed away fourteen months before) I will bring Eva to the gates to meet you.

The years that followed were lonely ones for the hereaved wife and mother, and her trials were increased With by much physical suffering. She was especially anxious that Bramwell should do well at school, and when, one day, he came into her room and joyfully told her that he had got to the head of his class, she put out her hand and, patting him on the head, said, "I am pleased, ducky.

She felt worse when the nurse remarked that the end would be very trying, and kneeling down by the bedside she pleaded with God that He would place His loving arm around Mrs. Pickering, pillow her tired head on His bosom, and thus tenderly take her away to he with Himself. Her prayer was answered.

Later on, Mrs. Brigadier Southali came into the sick room and en-deavoured to converse with Mrs. Pickering, but found that she was still in a half-unconscious state, and not ablo to speak clearly. Before leaving she stooped down and whispered:-

On Saturday she rallied a little and managed to say that she wanted to see her daughter Gladys, and give her a final message. Before the girl reached her side, however, Mrs. Pickering's strength had falled, and she was unable to say anything. Towards night, her sister, who was watching by her bodside, saw her stretch out her arms, and caught the faint whisner:

"Jesus, come and help me." She never spoke again, but passed peacefully away on Sunday morning, as if she had fallen alleep.

"Three weeks before her death Mrs Pickering attended a meeting at Yorkville, which was conducted by Brig adler Potter. As it was her last pub lic appearance, her words upon that are memorable. thoughts seemed to be upon death and the life beyond. She made reference to the triumphant passing away of her husband, and then added that If death came to her she was quite cady, for she bad made all preparation We cannot doubt it, for her blame less life, her meek and beautiful spirit, and her devotion to God and The Army, have jeft an indelible pression on the hearts and minds of all with whom she came in contact. She was a tried and true ed warrior of Jesus Christ, a quiet, uncomplain ing, gentle woman, who fought a brave fight and did untold good to thousands. From her earliest days she was identified with The Army Converied at the ege of fifteen, at The Army penitent form at Openshaw. She entered training in September, 1882, and after a term at the famou Grocian Theatre, where mightly reffianism told upon her strength, she specialical with Miss Emma Booth (the late Consul Booth-Tucker) for some time. A serious broakdown in health then compelled her to take a lengthened furleugh. She married Captain Pickering in 1888, and proved an invaluable holpmeet to him in the many Corps they commended.

Mrs. Pickering loved the War, and heroleally tried to take up Field Work after her husband's death. A GREAT RECEPTION AT VERNON.

The 26th of January will not soon be forgotten by the People of the beautiful City of Vernon, British Columbia. It was the day of the great hockey match between Vernen and Armstrong, but at 11 a.m., it was not the bockey match that brought out the crowd and the splendid Salvation Army Band, (whose music is so much appreciated) but the leading papers of the city had been announce ing the fact that Commissioner Cadthe biggest little man of The Salvation Army would arrive by the morning train, and was being met at the station by the friends of The Army and the Local Corps.

When the big iron horse came rushing into the depot and came to a stand-still, to the beautiful strains of salvation music a good erowd. that filled the station platform stood walting to welcome the man whose life bad been filled with such rush and roar that you felt like comparing him to the iron monster that brought him to Vernon. After a grip of the hand from the Major, the leading elergy and other prominent citizens and a few words of introduction from the Provinc'al Officer, Major Morris, Commissioner Cadman responded to the magnificent welcome we had received, and after thanking everyone dealt for a few moments with that crowd regarding the issues of life, and, so the informal affair of the and, as the informal man of the station came to an end, and the modern "Eljah" categod his War Chariot and was driven away to the strains of music, and with an except. of the faithful to The Salvation Ar Citadel, where he was welcomed by Corps and Provincial Officers, t' erowd turned away from that C. station, many of them realisi

The Lecture on his "Life and Travels," given in the Methodist Church at night (where he was ably Cunren at night (where he was anny supported by the leading clergy, Major Morris and others, with His Worship the Mayor in the chair) was of such unusual interest and so full crowd listened for two hours thirty minutes, and he held them spellbound, and when the lecture ended at 10.45 p.m., the people went away realising what God can do through a little man and not surprised at what The S. A PRACTICAL HALF DAY.

We are having some splendid times at \$t, John's I., Newfoundland, We had good times all day Sunday, Jan-uary 19th, at the close of which we were able to rejoice over eight souls who had sought and found the Savious. We had a special meeting January 14th, entitled "A Half Day at the Training Carrisvo," which went with a swing. All present formed their duties, especially when the scrubbing, sweeping, and unshing ocenes were enacted. Following this came the lessons from the Bible, D. D. W. W., F. O. And then the physical drills which were very interesting.—Cadet W. Crocker, for Adjutant Smith.

"BE THOU FAITHFUL"

This was the burden of the Commissioner's charge to the fifty newly made Officers, and we should like to remind them of it, but not only o, as we write, are speeding to their different commends with the influences of that Commissioning meeting still bot upon them; but those who may have been in their appointments for a time, and are, per-haps, feeling some of the bardships and difficulties of the Wr. and are reneing the invidious attacks of Enemy of Souls, Be thou faithful! What does that mean? Firm adherone's word, for another.

There are other aspects of faithfulness, of course, but let us consider Giac first. That Roman soldler, who at his post when the hot ashes fell upon him, and the molten lava slowed to his feet, yet would not leave his post, was a splendid ex-ample of faithfulness. The Captain of the lil-fated "Republic," who stood bis ship until she gank beneath him was another example of "firm adherence to duty," in times of danger, but there are things that ness even than extreme risk; it is the adhering to one's duty when there is no one looking on. When there is no immediate prospect of release; when one appears to be playing a losing game, that is the thing which es men's souls, and this experience will most assuredly fall to the lot of The Salvat'on Army Officer. We have all had this trial, even the most ighly placed in The Army have had encounter bours of darkness, lone finess, and seeming defeat. But Yaithfulness has conquered. A "firm adherence" to duty has brought us at again into the place where the sun shines, and victory grows. So it, their comrades, you may now, or in the inture, be called upon to show your faith, hold on! Don't give in, at sall upon God for grace to help you to prove faithful in the fight, for, as the Commissioner expressed it, who said 'Let there be light,' cated the sun and moon and stars to give the light, and He who has the necessary faithfulness."

Col. and Mrs. McIntyre VISIT TORONTO.

Splendid Meetings at Lisgar Street and Massey Hall-Many Old Friends Greet These Early Canadian Warriors.

HE visit of Colonel and Mrs. Mcintyre to Tor-onto, stirred many old memorics in the hearts of numbers of Snivathey accorded these tion'sts, and early-day warriors a very warm and enthusinstic welcome. Though it was sixteen years since the Colonel and conducted public meetings in Canadian city, he was well remem-bered by the older Soldiers, and in their testimonies they recalled many little incidents of the good times the used to bave together when Captain Meintyre was in their midst.

On Sunday morning the Colonel conducted the botness meeting at Lisgar Street, and a record crowd came to hear him. Amongst the visitors were Envoy and Mrs. Dawson, of Guelph, who had come up especially to see and hear the Colonel. It might be mentioned here, that the Colonel got converted at Guelph, Mrs. Dawson (then Captain Churchill) and the lady who is now his wife, were in charge of the Corps. Lieut.-Colonel Pugmire was on hand to introduce our visitor from over the line, and, without doubt, he expressed the feelings of the Can-adian Salvationists when he said that the presence of Colonel and Mrs. Mc-Intyre in Canada, was heartly appreeisted by all who had known them in days gone by, and that it was be yond all question but what the newer portion of The Army who would make their acquaintance during their stay. would fall in love with them just as much as their old friends had.

The Colonel, in reply, said that he considered it an honour indeed to be invited to Toronto by the Commissioner, to conduct special services, trusted that his efforts would be blessed by God, and people would be belped inspired and

encouraged. He then gave a spleadid address, based on the story of the twelve spics who were sent by Josh-ua to spy out the land of Canasa. More particularly he dwell upon the character of Caleb, and the excellent sulrit that he showed in endeavouring to encourage the Israel tes to go up and possess the land in splie of the great difaculties. At the close of the meeting three souls came forward seeking boliness,

The afternoon meeting was full of interest, one of the most pleasing features being a touching address from the Colonel's aged mother, who has seen seventy-seven wisters. understand that this is the first time she has ever spoken in an Army meeting. Brigadier Southall also snoke, welcoming the Colonel to Canda once more, and Mrs. Dawson told of the days, when as a lad, young Mcintyre knelt at the penitent form In one of her meetings. A splend'd solo from Captain Allen fairly captivated the crowd, and Mrs. Mclatyre's practical address proved a blessing

A fairly good crowd assembled in the Massey Hall at night. The Colonel was well supported by several of the leading Officers of T. H. Q. the Lisgar Street Band and the Temple Songsters, and a spleadid salvation meeting resulted. Liest. Colonel Pagmire led off by Haing not a song, then Lieut-Colonel Gaskin prayed, while it fell to the lot of Brigadier Soutball to introduce our American visitors. He did no la h's usual suave and appropriate manner. referring to the Colonel as an old colleague of a quarter of a century ago. A cornel solo by Captala Allen, "Blest be the tio that binds," was greatly appreciated, and added much to the interest of the meeting. playing of the Lisear Street E

was also an attractive feature. Mrs. Meialyre then gave a very forcible and practical address. She spoke as a mother to mothers, urging all who had the solemn responsibility laid upon them of training children, to bring them up in the fear of God. She laid special stress upon the truth that if children are properly trained they will develop into mon and women of principle, who serve God and love their neighbours as themselves.

The Colonel's address was weighty and powerful. He chose for his text, 'If any man love not the Lord Jesus Christ, let him be Anathema Maran-I. Cor. xvi. 22. In a pointed and direct manner he endeavoured to drive home the truth that the soul that sinneth it shall die-or in other words, the soul that rejects Christ shall be cut off. In the prayer meeting six souls came to the mercy seat to seek forgiveness, and be reconciled to their God.

The Commissioner and the Chief Secretary have paid a visit to the Government Legal Department in connection with the incorporation of The Salvation Army. We very much regret to say Brigadler Stewart, of Headquarters, is seriously ill, suffering, in fact, from hemorrhage of the brain. She was taken il) last Saturday morning, and we are glad to say that at the time of writing she appears to be somewhat better. This is, of course, a matter of great sorrow both to Commissioner and Mrs. Coombs. It was one of the most impressive and enjoyable commissionings we have witnessed in the Old Temple. With the Commissioner Headquarter's Staff, were Colonel and Mrs. McIntyre. The speech of the Colonel was one of the events of the ovening.

There is something very suggestive about an Army Commissioning. It calls up visions of the past, when the Master sent forth His disciples. two by two, to conquer the world. The Salvation Army still sends forth the disciples of Christ on the same mission, on much the same lines, and, thank God with marvellous regults

As a result of that meeting, fifty vomer men and women. What potentialities are before them. Oh, may Cod make them equal to these things.

There were many interesting events in that meeting. After the opening song—given out by the Chief Secrotary bad been sung, Mrs. Colonel Meintyre prayed for God to bless the meeting and the Cadets who were so soon to become Officers. Then Staff-Captain Cave, who on the following day was to leave for Newfoundland, to take up his responsible Educational Work, was dedicated to this service in a prayer by Lieut. Colonel Howell

He is of tall and burly build. has an open ruddy countenance, a broad, senial smile, and not the slightest trace of affectation. He gave us a speech that was full of early reminiscences, and most appropriate to the occasion. As the Colone; stood at the deek telling his story in simple manly terms—himself every tech a manually terms—himself every inch a man we could not belo

He told we to was born in a little los house in a hole in the Ontar o woods how he was educated in the little red house, and then came to Toronto to have a collegiate course at the age of fifteen. Then he described his first visit to The Salvation Army Then he described In the Old Richmond Street Hall when there were but seven Salvationin Canada: where he saw .a. frowsy, dirty-faced drunkurd kneel at the mercy seat, on the face of whom when he arose from his knees, there were two white spots washed clean with the tears of repentance that flowed from his blood-shot eyes. With moving pathos the Colonei took us on to another stage, when he got converted to an Army meeting, and how, when he was but seventeen, in the same Temple in which he then was speaking, he bad an interview with Commissioner Coombs, concerning his becoming an Officer. He told us how that among some heart-search ing questions, the Commissioner asked him if he coold sing solos. "No!" said the young Candidate. "Can you sing with other people? asked the Commissioner. The vonth thought he could. He was accepted and sent out as a Lieutenant. His Captain told him to take his Bible and go cut and visit, and pray in each house in the street. The young Lieutenant went forth. The first door at which he knocked was opened by a young woman with hair and nainted cheeks.

"I am come to pray with you, If ou have no objections," said the youth.

"Oh, this is no bouse for prayer," sa'd the girl; "this is a bad house. You mush't come here.:" But then as an after thought, she told him that her mother, ninety years of age, dying upstairs, perhaps would like to hear him pray. Our young Lieutenant ascended attic and read the Bible and prayed with the old soul, but she was very dark. Many and evil had been the days of her life. The next day he again visited her, and the light of the world shed its beams in her dark mind. She was saved. The young Officer's first soul had been wen. A

HEALTH.

In his general health and spirits. in increasing activity, we are glad to say that The General continto make good improvement. He has been able to take walking exercise nearly every day during the last week, and to confer with a number of leading Officers on various matters of importance.

Nevertheless, he is still experience ing a considerable amount of diffi-culty in obtaining the glasses most suited to his sight under the new conditions, and although it was hoped thta the difficulty would have been overcome last week, this has proved to be the case

Added to this, the eye which was operated upon still requires to be rested. Indeed much of the permanent gain resulting from the operation in the future, is dependent upon it not being overtaxed at first.

To ensure the attainment of this end, The General has, with much regret, felt it wise to postpone his tutended public meetings to Liver-pool and Glasgow, atthough he fully expects to be able to leave England for his Scandinavian Campaign on the date originally intended.

We claim for our heloved Leader a continued interest in our readers' prayers, and would direct attention to his stirring interview with our representative, which we print on Ather page.

Owing to the illness of our Capta'n, and the sudden call of the Lieutenaps to her home, the meetings for the week-and were conducted by Lieutenaut Smith, of St. John, who visited Bussex for the first time. These meetings were times of power and blessing to all, and every follower of God was 'inspired. The Sunday night's meeting was an earnest fight for son!s. The singing all through the meeting was grand. After a vocal duet, entitled, "Sweet Peace of Jesus," by Brother Strothard and the Secretary, the Lieutenant delivered in address, and although no one surrendered, we believe the seed sown for the Master that night shall bring forth good fruit in the future.

We have said 'tarewell to Brother Strothard, who left for his home in Bermuda. He has been quite a holy to the Corps, and will he much missed.—Secretary Ethel Doyle.

RETURNED TO SIVE THANKS.

Anything special going on in Kenora?

Oh, yes! We have had a visit from Captains Smith and Coleman, the financial Specials. We had a wery good day, their earnest appeals and good singing being a real help to his, and we had the joy of seeing one soul surrender, after rejecting Christ for many months.

ANSWERS TO PRAYER.

During the past two weeks, God has wonderfully helped us, and we are able to rejoice over ten souls, who have sought pardom. Sunday night was a time of powor to all present, and, at the close, three souls sought salvation. On Monday evening at 4 o'clock, we held a meeting for the children. Two young men made their way to the cross.—Lieutenant Crocker, for Captaka Thornhill.

PANCING FOR JOY.

Port Sinestord.— Quite recently Lieutenant Peach and two Boldlers of Charlottotown, paid us a visit. We were very glad to have them with us. They received a warm welcome from our commades. God came near and blessed our souls. The testimonies given were hotter than the cakes just taken out of the oven. Some of the comrades got the glory, and shouted at the top of their voices, others alughed for joy, and others danced. It was a heaven helow. One soul law assigns the lieutenant H. Bleks.

TWENTY-EIGHT FOR CHRIST.

Soldler Testifies at 101.

There is a Spirit of progress at Malacoburg. Lieutenant McKee is doing well, and we have been having very good meetings of late. Three backsliders came back Sunday night last, and seven persons sought the blessing last night at our Soldiers' meeting.

During the past month we have last twenty-eight souls for salvation and ten for sanctification. We have a Soldier at our Outpost who is 161 years old, and he is always ready with a word for God Look cut for more from the glass-blowing town.

On Saturday, Adjutant Habkirk, although far from well, took the meetings, assisted by Penltent FormSergeant Huntingdon and other local Officers, a well known local preacher reading the lesson and giving the Soldiers some excellent 'Presbyterian' advice.

Mrs. Habbirk took the holiness meeting on Sunday morning. At the afternoon inside meeting, comredes Fick, Spes and Horney had children dedicated to God under the Fiac, The meeting was a crowded one, Bandsman Golding giving a variegated testimony which caused much amusement.

Brigadler Collier received his first welcome at No. V. Hall. on Friday evening last, and on Sanday evening at No. L, where a good crowd gathered, and had a fine meeting. Colonel Turner presided, and introduced the Brigadler. One soul sought salvation, making three for the day.

On Saturday, January 20th, 23rd anniversary of the date of opening fire in Westville was celebrated. The Senior and "Young" Bands were to the fore, and we had a good time with Adjutant Orchard leading. The Adjutant loks well after the Band, which Brother Henderson still leads.

Then, as they stood, the Commisstoner gave them a most solemn and impressive charge, based upon the launction, "Be T ou Faithful." Faithfulness to their vows to God, faith-

An appeal for Candidates for Officership was made and heartily re-sponded to, and then, with The Army'a doxology, the meeting was closed, and the hopes and fears that had been rife for many days previous set at rest. God bless the fifty new Officers!

The Commissioner and the Staff Band at Dundas and Hamilton.

N Saturday and Sunday, February 6th and 7th, The Salvation Army forces in Dundas and Hamilton were favoured with a double attraction. The pres-ence of the Commissioner and the Staff Band at the same time at an engagement outside Toronto, doesn't occur very often. Not often enough may be said, if the Staff Band were to be consulted on the matter! may readily be inferred, we had an exceptionally fine week-end.

There was a patter of oare feet on the superstructure of the "Missouri," three or four sharp orders, a langling of tackle and the lifehoat, which hangs ever ready on davits, swung clear of the ship's shie, slipped into the water, and was rowed swiftly into the ever-whiching white circle made by the neighbouring menofwar. In the stern-sheets of each life-boat, are always provisions for two days and a eask of frosh water, for frequently in a storm the big ship loses the little one for many hours, and it is always a question with the officer of the deck whether or not he should order away the boat.

OUR NEW SERIAL STORY

POGASELSKY THE JEW &

And How He Found the Messiah.

A Fascinating Story of Jewish Life, and Travel and Adventure in Many Lands.

DON'T FAIL TO READ THIS CHAPTER

NOTE.—This is our new strial. It is quite different in ene and characterization from any serial we have hitherto published. Read this chapter. It contains some interesting information concerning Hebrew customs,

CHAPTER I.

MONGST THE JEWS OF GER-MANY.

T is so seldom that we come across a genuine-ly converted Jew in The Salvation Army, that when we do find one he ately becomes an unusual ob-Sect of interest to us. It was in an spenials meeting in Toronto, that The writer of this story first saw

Quite a crowd had gathered around the Salvationists, to listen to the tes-timonies, several Hebrews being condimentes, several Hebrews being con-specious amongst them, when sud-sidenty a man of diminutive stature, with distinctly Jewish features (one would have thought that he was a remearmation of Zaccheus, the pub-lican) darted into the ring and hegan an impassioned appeal to the people to seek Jesus of Nazareth, the true Massiah.

to seek Jesus of Nazareth, the true Messiah.

The Hittle Jew was lavited to come to the Editorial office the next day to relate the story of his life and conversion. He readily consented, and tells his story to the public solely for the glory of God, and in the hopes that it, will, result in the conversion of more of his race.

We fittle think what the conversion of the Jews means to the world, it is said that on one occasion those two famous servants of God, Charles Simeon and Edward Blekersteth, were skiting together on a missionary to Natform. The former was specially malterested in work among the Jews, while the latter was, at the time, while the latter was, at the time, Secretary of the Church Missionary Society, Simeon had been speaking of the work that was so dear to him, and, as he sat down, Blekersteth put into his hand a piece of paper with these words written upon it:

"Eight million leves, eight hundred million heathen, which is more important."

Simeon headed back the paper, and blekersteth read this sentence: "Yes.

"Eight million Jews, eight hundred million heather, which is more important?"
Simeon handed back the paper, and blickerstein read this sentence: "Yes, but if the eight million Jews are to be life from the dead to the o'ght hundred million heather, what then?"

Mr. Simeon evidently referred to st. Faul's words in the 11th chapter of Robnam, "For if the casting away so them be the reconciling of the more in the same of the ferman be, but life from the dead?"
That the people of Israel will eventually turn to the Messlab they crucided, is plain from the words of Paul Turther on in the same chapter, where he says, "That blindness in part is Rappened to Israel, until the fullness of the Gentlles be come in. And so mil farnel shall be saved; as it is britten. There shall one out of Zion the Deliverer, and shall turn away ungoldiness from Jacob."

We have no doubt but that the prayers and efforts of Christian People will help to bring about a sincert, fulfilmen; of that remarkable prophscy, and this story is sent forth with the camest, prayer that it will awakes fresh interest in the question of the conversion of Israel.

We will relate the story as told to us by, the little few.

Herman, and was loft as orphan at a very early age. His father died in hall whiles serving a term of imprisonment for the erime of stealing cardion, from a Roman Cathelic Church. Herman, was, theretoxy, left is the caller mercels, and the story is a servery for the remains and the colored of an orphan at servery early age. His father died in hall whiles serving a term of imprisonment for the erime of stealing churchs. Herman, was, theretoxy, left is the tender mercels and milks and the colored and t

uncle, and had a pretty rough time in consequence. Like all Jewish boys, he underwent the rite of circumcision when eight days old, and when he reached the age of fourteen, was duly confirmed by the Rabbi in the synagogue. He remembers that on the latter occasion the Rabbi, after hearing him read the Ten Commandments and a chapter from Deuteronomy, patted him on the head and add. You are a good little tellow, and have done very well." His conscience must have pricked him acverely then, for he was one of the most rascally boys in town, and was constantly breaking the eighth commindment by radding apple orchards.

As education is compulsory in

boys so town, and was constantly breaking the eighth commundment by raiding apple orchards,

As education is compulsory in Germany, Herman was sent to the public school in the garrison town of Friedburg, where his uncle was then living. After receiving instruction from the Gentile teachers all day, he was obliged to attend a Jewish night school, under the direction of the Rabbis, in order that his religious education might not be neglected. In the Jewish school he studied the Old Testament, and the Taimud, and so got thoroughly inhued with the sentiments and traditions of his race, in the public school the Jewish children were not compelled to attend the religious Instruction class, which was held from eight till nine every moning, but Herman crept in once to get out of the cold, and was so fascinated by what he heard that he attended by what he heard that he attended they after that. The class was studying the Acts of the Apostles, and as Herman listened to the wonderful story of St. Paul's travels and adveatures and his heroic fortitude under all circumstances, his admiration for this wonderful jew wboturned Christian, continued to grow and grow. Years later the story all came back to him under somewhat remarkable circumstances.

and grow. Years later the story all came back to him under somewhat remarkable circumstances, but we will relate that in its proper order. Herman has vivid recollections of the various fasts, feasts and cremon-les connected with the Jewish ritual, which were observed by his relatives and friends. His aunt had a great horror of pork, and once scrubbed at this seven times because a piece of table seven times because a piece that objectionable meat had lain upo It for a short time.

The Sabbath was very rigorously The Sabbath was very rigorously kept in bis home, and all the ceremonial trifles in connection with its observance were regularly carried out to the letter. Immediately it was over, his aunt would get drunk on whakey, and have a quarrel with her husband.

over, his samt would get armin whishey, and have a quarrel with her husband.

Now, young Herman was a keen lad, and he soon came to the conclusion that there was not much in a religion which consisted of formal and outward observances, and seemed powerfess to control the appetites and passions of men and women. As he grew older he became very frequisious, therefore, and used to speed his time with the wild youths of the form, drinking and carousals. His uncle would thrush him severely, and this sort of freatment made Horman feel very bitter against his relatives. On several occasions he ran a few, but was always found by the police and brought back. At last his uncle would then and packed him off or good, giving him the sam of, two dollars with which to go out and face the world. Poor Herman soon came to the end of his resources, and then he started peddling small articles around the country. For two years, he led an almiess and wretched existence, constantly on the verge of starvation,

and with no place to call home. Once he secured z job driving thirty piez from Krotochin to Rawiez, If his aunt could have seen him then, doubtless she would have had a fit on the spot. On another occasion he was employed by a Jew to collect market fees, whiist he went to hear the hiowing of whits he went to hear the blowing of the Bhopkar at the local armseque-during the Jewish Festival of the New Year. He got on very well un-til a drove cf two hundred pigs came to market, and not being gathe er-tain as to what dues to collect for the grunters, he hastened to the syn-agogue and called out to his master, "What's the charge on pigs, air?"

the gronters, he mastened to the smaster, "What's the charge on pigs, air?"

The Jew hustled him out of the symptomer, gave him the information the desired, and then went back to his devotions. But poor Herman gut a terrible thrashing for his conduct the next day. As it may interest our readers to know something of the ceremonics observed by the Jews during the festival mentioned, we will briefly describe what takes place. New Year's Day in the Jewish calendar is the first day of the month Tishri, and corresponds with September 26th in our calendar. It is a very solemn time for the Jews, being regarded as the anniversary of the day on which the world was created. The day before the Peast is kept as a fast, and, after the morning services the Jews visit the graves of their friends. Like all Jewish feativals, the celebration of the New Year begins on the preceding evening with a service in the synagone, and when, at aunset, the New Year has begun, they greet each other with the words, "May you be wrife for a good, "May you be wrife for a good when, are day begun amongst his family, and each dips it in a cup of honey, saying, "To a good year and a sweet namily gove early to the synagone.

one."

Next day nearly every Jewish family goes early to the synagogue. After the reading of certain portions of Scripture, the ceremony of blowing the shophar is a ram's horn trumpet and no token in Juda'sm is so rich in semtiment.

no token in Juda'sm is so rich in sentiment.

In the days of Israel's independence, all great events, such as the Jubilee year, the liberation of slaves, the restoration of sold or morigasel and to the rightful owners, the matering in of the Sabbath Year—which was every seventh year, when no tilling of the soil was permitted—all these and many other events, were herhided by the biast of the trumpet. Thus, the very sound of it awakens in the Jewish breast many pleasant; many traglesi, and many pathetic recollections. But beyond the awakening of thee national memorice, the trumpet has another eignificance. It is recognised as the cubican of liberty-from shameful life, liberty from all the life which afflect maskind.

The blasts are thirty in number, all haries a proper and

The blacts are thirly in number, each having a proper and separate name, and so long as they continue all the congregation listen with a most devoit and reverent attention.

The blacts of the trumpets are followed by very soletan grayers, and by the chanding of historic hymms, as add as the days of the tabernacle, and always profoundly impressive and stirring.

Like Tennyson's brook, they can sing "Nations come and nations go, but I so on for ever." They are the generation which pass not away.

Having thus digressed from our story for a moment to describe the scenes with whech Pogaselsky was familiar, during his horshead, we will resume our account of his fertiler adventures in our next chapter.

The girl was influenced by the jail meetings of The Army held in Dawnon the last several weeks, and expressed a desire to reform. The Salvation Army people were willing to do nil in their power to belp the woman on the proper course, and made arrangements whereby she would not have to serve the full term, provided she could be taken out and placed in the Rescue Home. Her good behaviour in prison made it pensible to commute the sectence with good grace.

Commissioner Henderson and other heads of departments gave valuable all dis making it possible to get the girl released. A number of citizens contributed generously toward the expease of the trip.
